THE OLD PROCESS

1 - Story

I ditched the bright Nintendo look for a gritty, grounded reality.

Zelda isn't just waiting in a castle; she's seeing her home get destroyed and has to act.

I mapped the specific beats and scenes:
Fear → Ruin → Rage → Capture → Confrontation

1.5 - Location Scouting

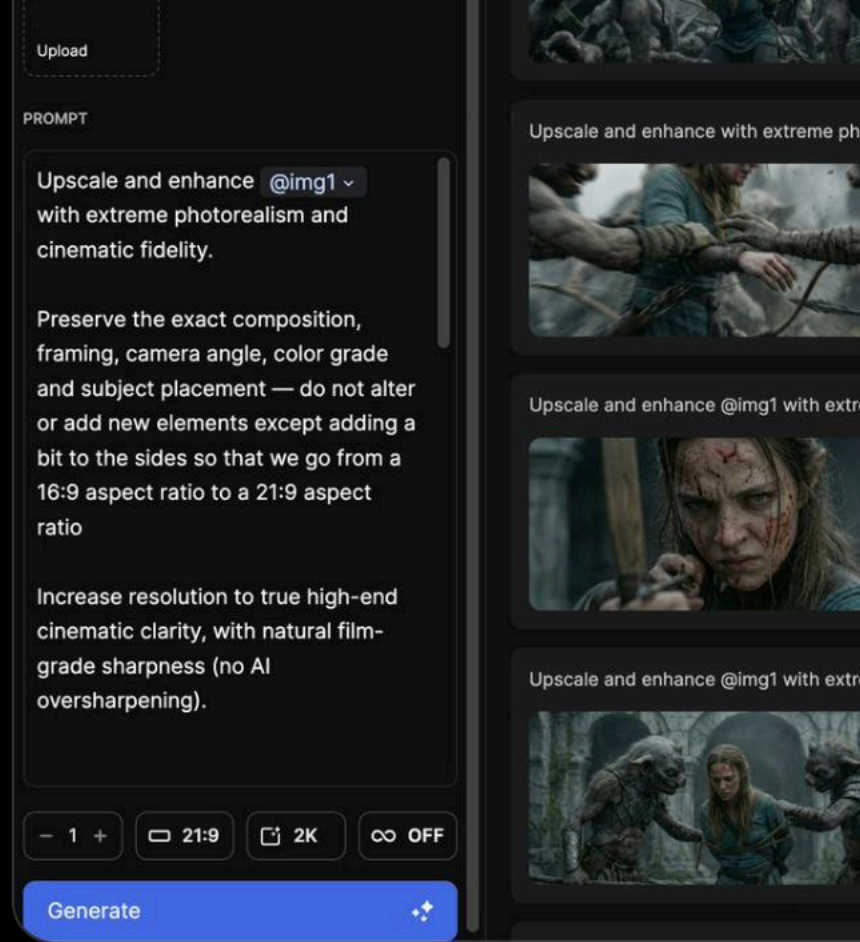

I then mapped out all the iconic Hyrule locations that I wanted.

I wanted them to be cinematic and chaotic.

Generating a quick "mood board" helps you get consistent results when you dive into each scene next.

2: Image Generation

The secret weapon is Nano Banana Pro inside @freepik.

I use a specific prompt structure to generate a 2x2 grid.

This gives me consistent lighting and multiple angles of the same scene instantly.

Do not use 3x3 grids, they lose too much detail.
