

In Uzbekistan, over 12 million children are under 16 – a generation full of potential shaping the country's future.

Yet a large portion of school graduates don't know what to do next. They lack a clear picture of their strengths, weaknesses, interests, and talents.

The Problem

Centers & experts are scattered, no single platform

Don't get a chance to try everything early

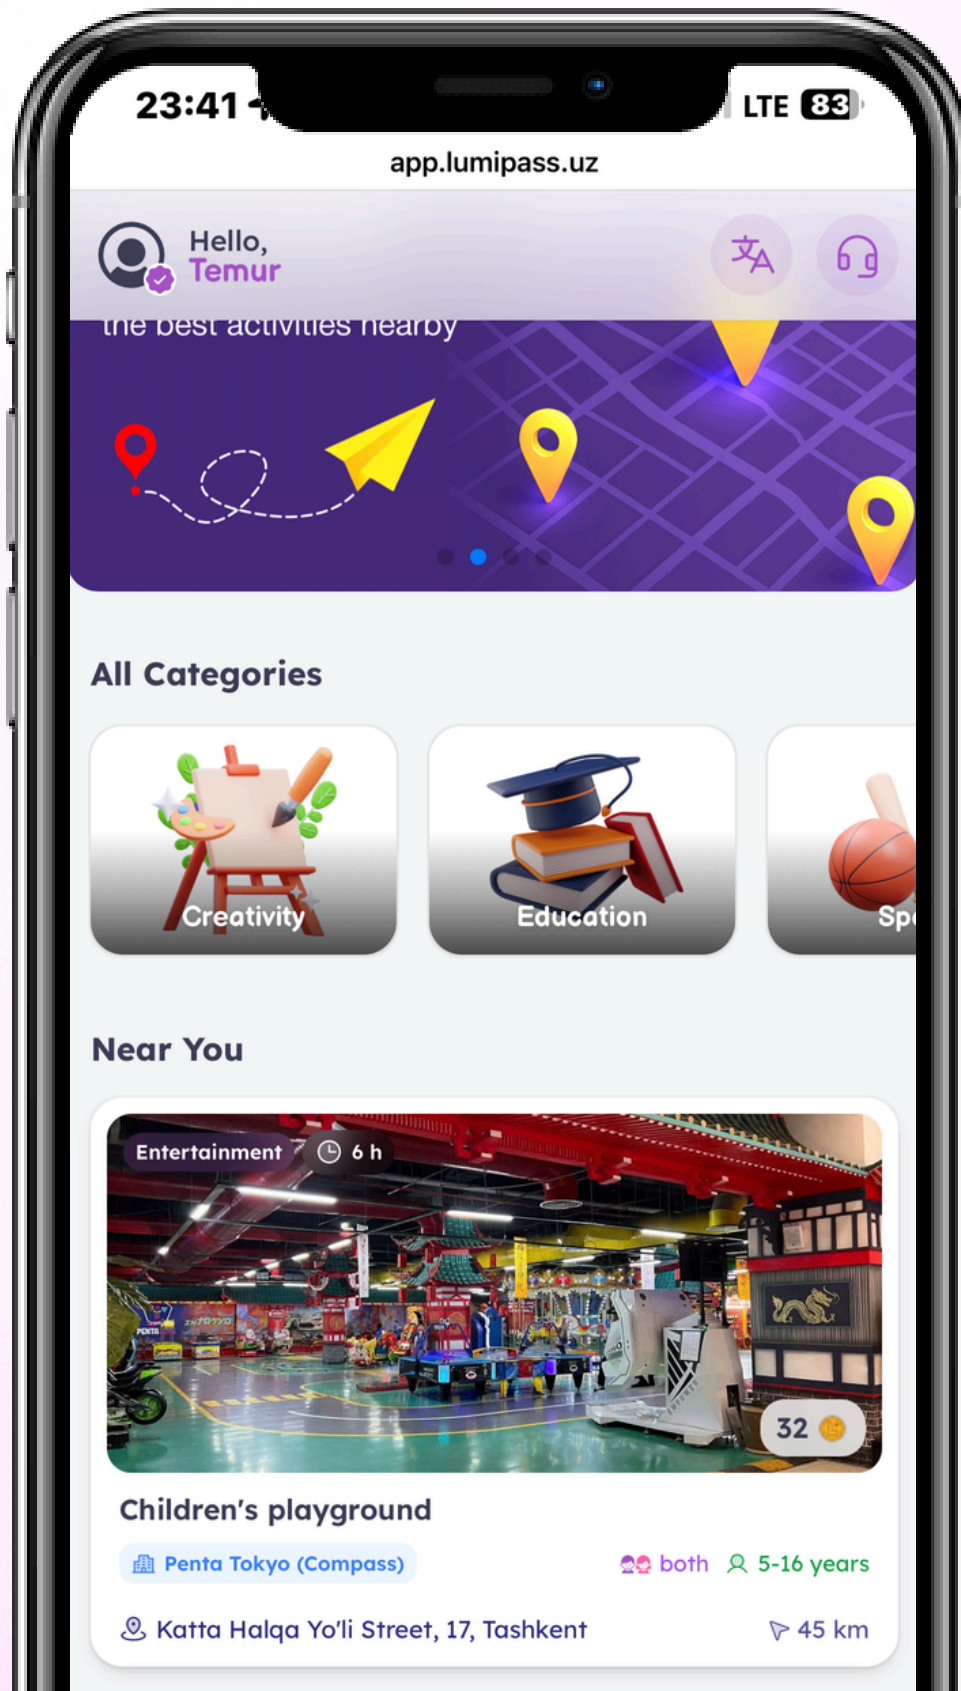

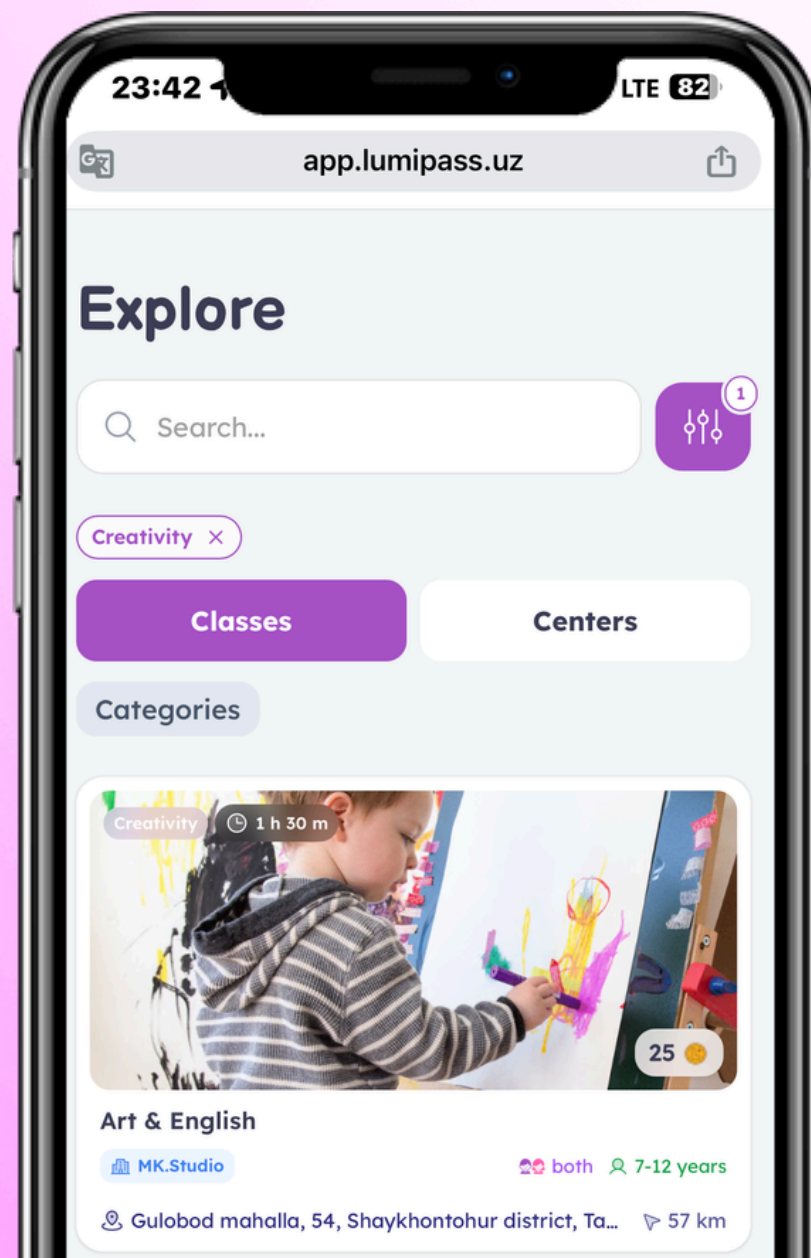

No progress tracking, no personalized guidance

Payment is not flexible → Trying is expensive in time & money

Parents rely on neighbors' advice, hype, or others' success stories

Unlocking Every Child's Potential

The Solution

For Parents — Simplicity & Flexibility

Easily search, compare, and book activities with complete transparency, real reviews, smart filters, and flexible pay-as-you-go options.

For Children — Daily Exploration

Try different activities every day — from sports and art to STEM, dance, and education—discovering what truly sparks their interests.

For Centers — Digital Growth & Insights

Manage schedules, track demand, and boost visibility while filling empty slots efficiently with data-driven marketing and operational tools.

Visibility Into Progress — Measurable Growth

Automatically track attendance, skill development, and milestones so parents and children can celebrate achievements and monitor growth over time.

AI + Experts = Intelligent Development

AI combined with expert feedback analyzes progress, emotions, and interests to recommend focused learning paths and future strengths.

The Closing & Vision

“We want every child in Uzbekistan to discover their potential early.”

“A future where parents, children, and experts collaborate seamlessly to raise healthy, skilled, and happy children.”
